The Paradise Pools & Spas Pledge

Personal attention is the norm at PPSNJ. Some pool “builders” will dig a hole and build the pool. Beyond that, you’re considered just a customer number. Chances are you’ll never see or speak to your salesperson again. We know that it is a much bigger picture you have in mind and we will not leave you to finish your backyard alone, chasing contractors and coordinating the concrete, fencing, hardscapes, landscapes, lighting, etc. After all we are “The Backyard Place.” PPSNJ owners are on site from start to finish, adding a personal touch to every pool project we complete. We’re there to build you a custom pool and help you make decisions about options for Pentair Eco-Select, water features, lighting systems, automations systems, energy efficient heaters and pumps and high tech filtration systems. We know what you expect from us: a job done correctly and in a timely fashion while always dealing with a courteous and professional staff. Each and every client is considered part of our family and we are confident that we will exceed our client’s expectations and we invite you to join our growing referral list.

Call Paradise Pools & Spas
to turn your dream of a
custom back yard retreat into a reality!
